

PL 2

OVERCOMING CHALLENGES AND HARNESSING OPPORTUNITIES FOR HEALTH AT THE BIODIVERSITY-CLIMATE NEXUS

| BACKGROUND

Unabated biodiversity loss, climate change and pollution are the leading global health challenges of our time. Our dysfunctional global food system is at the heart of this “triple planetary crisis” and holistic multisectoral approaches to health, such as One Health and planetary health, are at the heart of solutions to bridge the persistent and growing health challenges they pose. At the same time, ecosystem-based approaches, or nature-based solutions, that embed health co-benefits offer essential opportunities to meet the adaptation and mitigation commitments set out in the Paris Agreement and post-2020 Global Biodiversity Framework, when combined with food system transformation, technological innovation, a green energy transition and the necessary socio-political and economic conditions to achieve equity and social justice.

| OBJECTIVES

The overall aim of sub-theme 2 will be to take in-depth look at the common drivers of biodiversity loss, climate change and pollution, and the impact of these environmental determinants, coupled with social, political and economic determinants on health outcomes. It will focus both on underlying systemic challenges at this nexus and key opportunities to overcome them in the path toward sustainable transformational change. It will further seek to catalyze health leadership, from local to global levels, by drawing on existing evidence and knowledge through more coordinated, ambitious and inclusive multi-sectoral approaches to inform evidence-based policies and actions. It will also seek to identify key opportunities to maximize health co-benefits and minimize trade-offs at the biodiversity-climate nexus, and to build both social and ecological resilience, and resilient health systems and societies, in the face of global environmental change.

Keynote / Keynote / Keynote

Vandana Shiva

Founder

Research Foundation for Science, Technology and Ecology
India

Dr. Vandana Shiva is trained as a Physicist and did her Ph.D. on the subject “Hidden Variables and Non-locality in Quantum Theory” from the University of Western Ontario in Canada. She later shifted to inter-disciplinary research in science, technology and environmental policy, which she carried out at the Indian Institute of Science and the Indian Institute of Management in Bangalore. In 1982, she founded an independent institute, the Research Foundation for Science, Technology and Ecology in Dehra Dun dedicated to high quality and independent research to address the most significant ecological and social issues of our times, in close partnership with local communities and social movements. In 1991, she founded Navdanya, a national movement to protect the diversity and integrity of living resources, especially native seed, the promotion of organic farming and fair trade. In 2004 she started Bija Vidyapeeth, an international college for sustainable living in Doon Valley in collaboration with Schumacher College, U.K. Dr. Shiva combines the sharp intellectual enquiry with courageous activism..Time Magazine identified Dr. Shiva as an environmental “hero” in 2003 and Asia Week has called her one of the five most powerful communicators of Asia. Forbes magazine in November 2010 has identified Dr. Vandana Shiva as one of the top Seven most Powerful Women on the Globe. Dr. Shiva has received honorary Doctorates from University of Paris, University of Western Ontario, University of Oslo and Connecticut College, University of Guelph. Among her many awards are the Alternative Nobel Prize (Right Livelihood Award, 1993), Order of the Golden Ark, Global 500 Award of UN and Earth Day International Award. Lennon ONO grant for peace award by Yoko Ono in 2009, Sydney Peace Prize in 2010, Doshi Bridgebuilder Award, Calgary Peace Prize and Thomas Merton Award in the year 2011, the Fukuoka Award and The Prism of Reason Award in 2012, the Grifone d’Argento prize 2016 and The MIDORI Prize for Biodiversity 2016, Veerangana Award 2018, The Sanctuary Wildlife Award 2018 and International Environment Summit & Award 2018.
